Double coyote ugly

Coyote ugly is the street term for a girl who is so ugly that after you wake up from a drunken stupor with your arm around her, you bite your arm off instead of risking waking her up. Double coyote ugly is when she's so hideous that you bite your other arm off too, to make sure you never do that again. Some VV voters are suffering from a double-coyote-ugly hangover. While they were getting intoxicated on VV's seductive advances in the election campaign, they let themselves be swept away by its [foxy babes](#) and its [hunky snake-oil salesman](#). The gleam in [Little Putin](#)'s eyes should have been a warning sign, but no, they threw caution to the wind and let their, uh, manhood or womanhood do the thinking for them. Now they're having night-after regrets. The romance lasted slightly longer than a one-night stand, but it will be a cold day in hell before VV's armless voters do something stupid like that again.
